

PACKAGING PECYNNU

"Spherical Blade Limited engaged Lagrafica to produce, against a very tight deadline, a themed range of marketing, exhibition and sales collateral and business stationery for our commercial launch into the golf market. This was a critical piece of work, since the image we wanted to convey was one of a professional, high quality, established company, but with an impactful, fresh and very customer friendly product introduction.

"Lagrafica immediately understood the brief and exceeded our expectations in creating exactly the right look, feel and impact across all the items we needed. The feedback we have received from customers and golf industry suppliers has been universally positive and Lagrafica's work has made a major contribution, at a very cost-effective price, to our immediate market profile."
