

ILLUSTRATION DARLUNIO

"Lagrafica really does produce 100% damn fine design. Dealing with MD Daniel Lewis, took the stress out of what is such an important and daunting part of setting up a business. Daniel immediately identified the core requirements of the business and was keen to understand the branding look Neath Ales was aiming at without ever imposing his own vision for the company."

"The results have been sensational. Lagrafica has produced an extremely strong family branding identity across the product range and we are delighted with the results."

James Thomas - Director, Neath Ales

Switch to fine art for fine design

From DaVinci to Disney, artists have added their magic to many an ad campaign. And through illustration or animation, our pencils and paint pots can breathe new life into your message.

Our illustrations are about the personal touch - the unique idea that customers will only associate with you. While animation takes you one step beyond, lifting your campaign from stasis to take on a life of its own.

Lagrafica's stunning artwork will illustrate the finer points of your business, transforming your image into a creative marvel you could hang in the Tate. Or at the other end of the scale, we do a good line in talking squid. (It's not high art, but for stings & virals it's up there with hula-hooping hippos!).

Newid i gelf gain ar gyfer dylunio cain

O DaVinci i Disney y mae darlunwyr wedi rhoi swyn ar sawl ymgrych marchnata a thrwy ein darluniau neu animeiddio gall ein pensiliau a photiau paent ddod â'ch neges yn fyw.

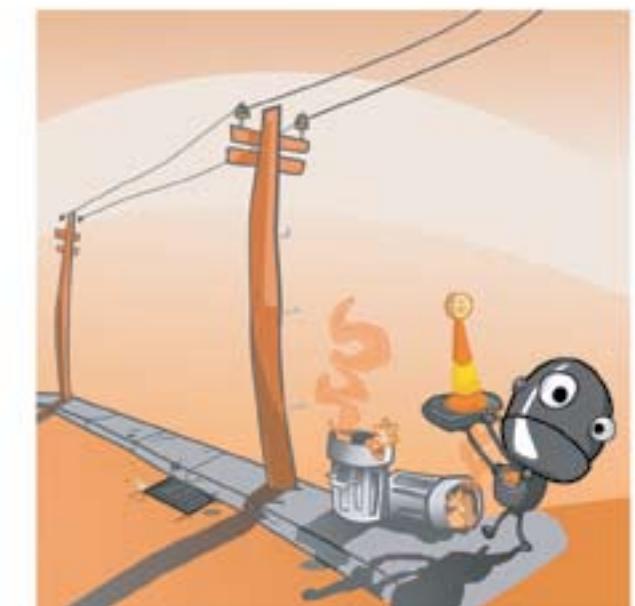

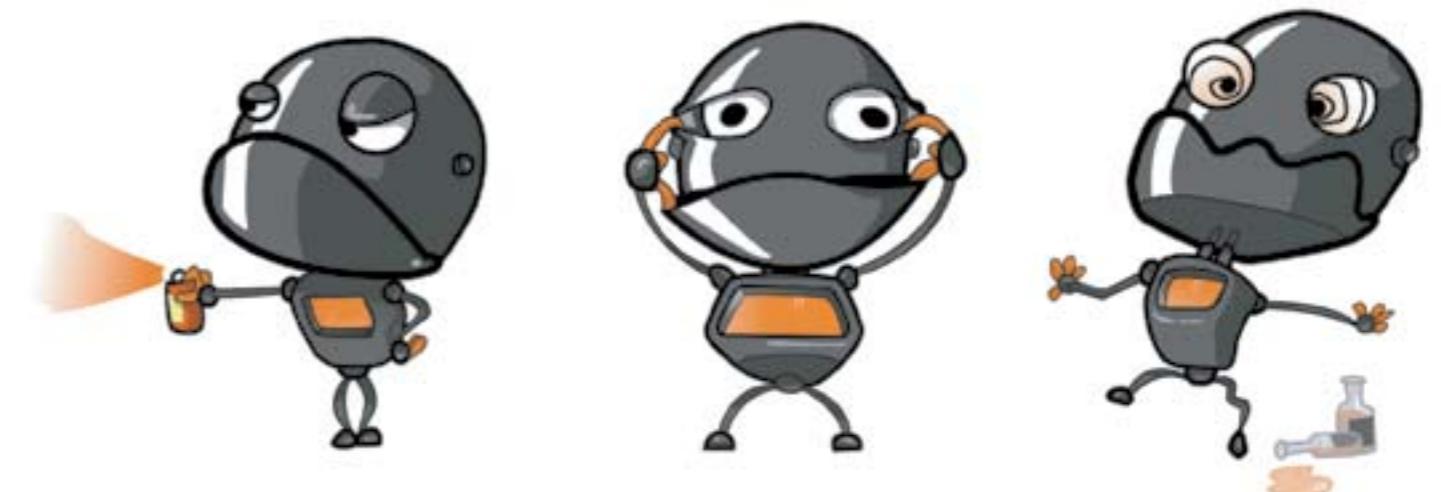

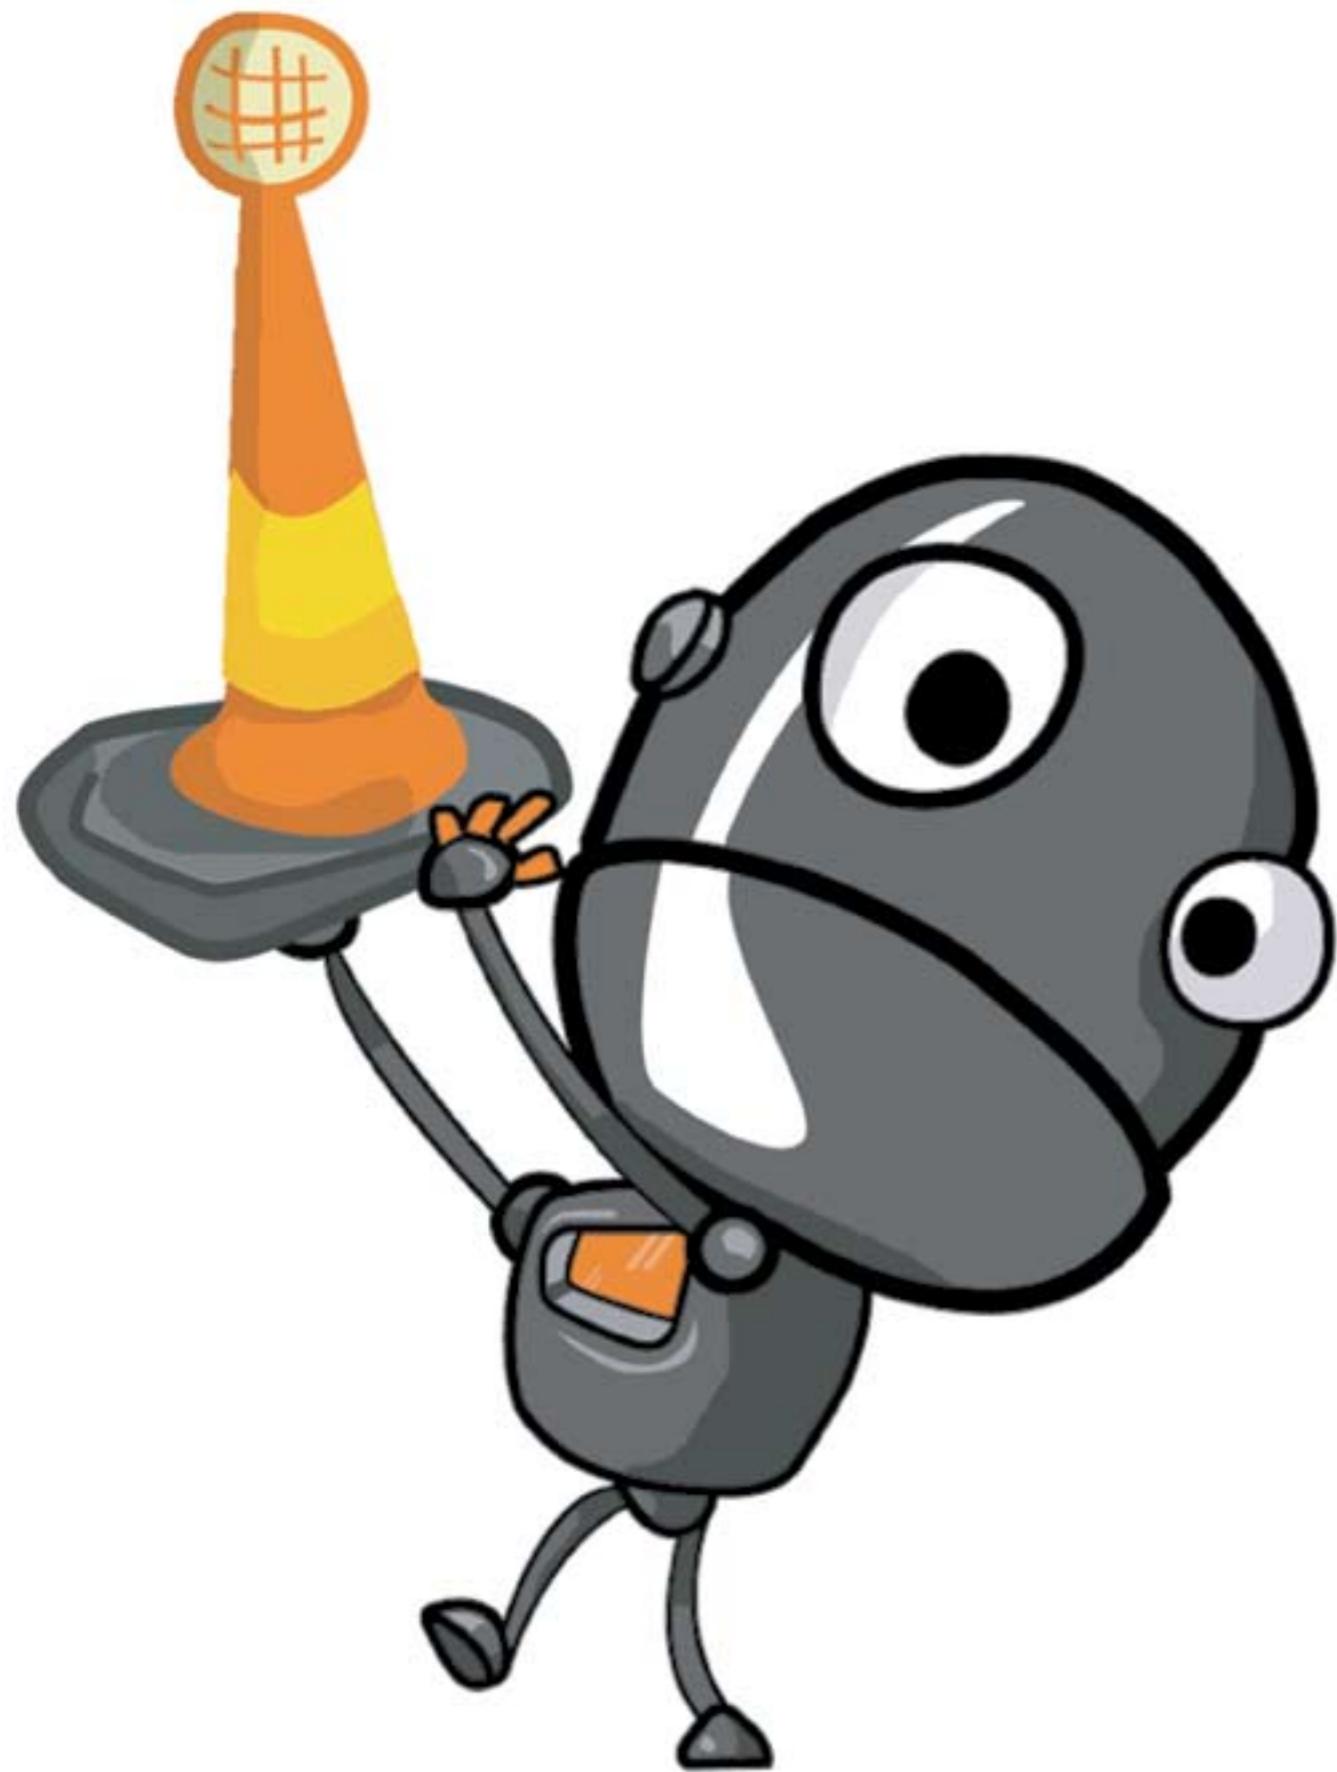

Mae ein darluniau yn bersonol - y cysniad unigryw y bydd cwsmeriaid yn eu clymu â chi yn unig. Tra bo animeiddio yn mynd cam ymhellach gan newid eich ymgrych o stasis i gael bywyd ei hun.

Bydd gwaith celf Lagrafica yn dangos pwyntiau pwysicaf eich busnes gan ei weddnewid i berl creaidol gallwch ei arddangos yn Oriel Tate. Neu, pen arall y sbectwm, mae ein môr-lewys sydd yn gallu siarad yn wych (nid yw'n gelf gain ond mae'n gydradd â hippos sydd yn gallu hwla hwpiol!).
