Quick Lookup List of Paint.Net Plugins
1 May 2011

List maintained by Ego Eram Reputo

Additions since the last monthly revision are highlighted with a green background

Plugin/Effect Name	Topic	Author	Description
3D Heightmap v1.0	9480	Spikehead777	Takes current image as a height map & shines a light on it, returning the intensity of reflected rays as another image (similar to Emboss).
Add Noise +	6005	MadJik	Adds "noise" to a selection. Included in the native "Add Noise" effect.
Add/Remove/Recover Watermark	11138	Evan Wallace	Removed by author due to possible copyright abuses.
Advanced Color Replacement	13544	silverhammer	Recolors every pixel a different amount based on how similar it is to the secondary color.
Alias Plugin (Feather's New Best Friend!)	9959	Mike Ryan	Removes antialiasing. Useful prior to feathering.
Align Object	4193	moc426	Align your drawing on the canvas OR to your selection.
Alpha 32bits Bitmap Support for Paint.NET	11201	FremyCompany	[i]Filetype[/i]. Allows you to open and save file in 32-bit bitmap. You must rename the file to *.bmpx (to avoid conflit with the existing PDN's BMP handler). If you try to open non-BMP files, you should receive an error (24bpp bitmaps are loaded correcty).
Alpha map	13330	Boude	Convert color to transparency & vice versa.
Alpha Mask Import (1.2)	1854	Illnab1024	Turn an image into an alpha mask. If the image has color, it is converted to greyscale.
Alpha Transform 1.1	16195	DW-dev	Pixels below the lower limit get alpha set to 0 (fully transparent). Pixels above the upper limit get alpha set to 255 (fully opaque). Pixels in between get alpha between 0 and 255 depending on their brightness.
Alpha Transform v1.0	16059	DW.dev	Superseded by a later release: [topic="16195"]Alpha Transform 1.1[/topic]
AlphaMask Brush v1.7	9586	Simon Brown	No longer supported: draw an alpha-mask directly onto an image.
AlphaSpace	13061	MaR-V-iN	Converts a white/black background into transparency. Recognizes shadows and makes them semi-transparent.
Anaglyphs (stereo pictures)	16418	Itso	Creations of anaglyphs (3D stereo pictures).
Animated Image 1.7	13454	Simon Brown	[i]Filetype[/i]. Open and save animated GIFs & PNGs, one frame into each layer. [topic="15218"]Simon Brown's Plugin Pack[/topic].
Animation Helper v0.81	17516	recursor	Allows you to view any sequence of animations within a sprite sheet.
Another ASCII Art File Type Plugin	8646	I Like Pi	[i]Filetype[/i]. ASCII art generator. Transform your image into an ascii art masterpiece!
Another Raw File Loader	4717	Telesto	[i]Filetype[/i]. Support for loading RAW files.
Anti-alias v1.5	5610	jsonchiu	Use to smooth edges, keeping them clear, not blurred.
Apply Texture	19666	niwax	Applies a texture to any selected object, saving the brightness.
ASCII Art (Depreciated)	8232	Simon Brown	Allows you to export an image as ascii art. Depreciated, use: [topic="8646"]Another ASCII Art File Type Plugin[/topic].
Asmageddon Tools Pack v3	6845	Asmageddon Prince	Numerous color & distort effects.
Autochrome Noise	19398	MadJik	Autochrome is a primilary method to obtain colored photos.
Average Color (HSL)	16932	Neil Cassidy	Averages the color of a selection with regard to human perception of color.
Average Color of Selection	12919	MJW	Averages the color over a selection.
Average Edge Blur	20542	cookies	Edge blur. Samples colors at the edge of an 8-way circle and returns the average.
AVI Frame Importer: AVIImport Version 4.0	7488	Simon Brown	No longer supported: [i]Filetype[/i]. Allows Paint.NET to open an AVI (movie) file and choose which frame to open as an image. Files should be supported by the Windows AVI library. NB not all video files will work.
Barcode Plugin	3305	Sepcot	Generate barcodes from user input. Recomplied by [member="eladkarako"]. Find the new version here: http://forums.getpaint.net/index.php?/topic/3305-barcode-plugin/page__view__findpost__p__325391
Bars	4279	MadJik	Generate colored bars from a border of the image with a random length.
Basic Antialias v1.1	7644	pyjo	Reduces aliasing without altering the sharpness of the edge.
Basic morphologic operations	8965	PhilipLB	Performs basic morphologic operations: dilate and erode.
Basic Photo Adjustments v2.0	12374	Tanel	Color and tone enhancement tools (levels, curves) in a simple intuitive package. [topic="11619"]Tanel's Plugin Pack[/topic].
Batch Processor - PROTOTYPE	16933	jxp	[i]Removed by Rick Brewster[/i]. Prototype batch processor.
Benchmark Utility (PdnBench)	924	Rick Brewster	Superseded by a later release.
Bevel Plugin v1.4	5550	jsonchiu	Applies a bevelled edge.
Black and Alpha+	13837	dpy	Changes an image into black and white , and changes brightness into transparency. [topic="16643"]dpy's Pack[/topic]
Black and White Converter v1.1	15093	Tanel	Convert image to B&W/greyscale, with loads of options. [topic="11619"]Tanel's Plugin Pack[/topic].
BlendModes Plus v1.3	16607	APShredder	Apply a host of new blendmodes: Normal, Average, Blue, Color, Cyan, Divide, Exclusion, Grain Extract, Grain Merge, Green, Hard Light, Hard Mix, Hue, Linear Burn, Linear Dodge, Linear Light, Luminosity, Magenta, Maximum, Minimum, Phoenix, Pin Light, Red, Saturation, Signed Difference, Soft Light, Stamp, Vivid Light, Yellow.

BLP Converter Plugin	11192	Evan Wallace	[i]Filetype[/i]. Filetype plugin for loading Blizzard Picture files (*.blp). Requires [url=http://www.microsoft.com/downloads/details.aspx?FamilyID=a5c84275-3b97-4ab7-a40d-3802b2af5fc2]Microsoft Visual C++ 2008 SP1 Redistributable Package[/url].
Blue/Green Screen Remover	14306	Bleek II	Remove green screen / blue screen (background) from an image. Note: semi-broken
BoltBait's Pack	8318	BoltBait	[i]Plugin Pack[/i]: Effects: Color Balance, Transparency, Flip Horisontal, Flip Vertical, Pastel, Gaussian Blur Plus, Feather, Outline, Lomography, Combined Photo Adjustments, Sharpen Landscape, Polygon/Stars, Flames, Bevel Selection, Outline Selection, Feather Selection, Hide Image, Reveal Hidden B&W image, Reveal Hidden Color Image, plus one palette file.
Border / Stroke Effect	4104	moc426	Draw a border around image or selection with your primary color.
Borders N' Shapes v1.6	4128	pyrochild	Draws a variety of borders and shapes.
Bricks	8251	jchunn	Creates bricks (with mortar) patterns. [topic="8408"]Jesse Chunn Plugin Pack[/topic].
Brightness/ Darkness to Alpha	9988	Mike Ryan	Superseded. Turns Brightness (or Darkness) into pure transparent goodness! Locked by request: use [topic="10494"]Color to Alpha[/topic].
Buttons	13861	MadJik	Create beautiful buttons with or without text & symbols. Now with border width & text AA.
Camera lens distortion correction	7216	kbarni	Correct the barrel or pincushion distortions in digital photos.
CannedBrush 1.5	10645	Simon Brown	Automates the process of creating repeat brush strokes for Custom Brushes plugin. [topic="15218"]Simon Brown's Plugin Pack[/topic].
CellMaker	8045	Ego Eram Reputo	Renders x,y sized cells whose edges are entirely within a given selection. Obsolete, use [topic="17292"]CellMaker Rev[/topic], the improved version.
CellMaker Rev	17292	zoonel	Improved Cellmaker plugin with more options.
Channel Mixer Greyscale (aka Advanced Greyscale)	3616	Illnab1024	Mix the Red, Green, and Blue channels separately as you convert an image to greyscale. [topic="8677"]Illnab1024's Plugins[/topic].
Channels v2.0 (Formerly InvertColours+)	9308	Simon Brown	No longer supported: modify colors by channel.
Chart White Balance and exposure adjustment	13315	yvdh	Adjust the white balance of a picture based on the white and black patch a standard color chart in the scene.
Checkboard	13797	Simon Brown	Draws a checkboard similar to the one used by PDN to show transparency.
ChessFEN	10782	Ego Eram Reputo	Draws chessboard + position from scratch or by parsing a FEN string. Uses the Chess Merida font, so the font must be installed.
Chroma Key (Green)	12991	tarheit	For removing the green background from an image. Updated to include Blue.
Circle Text	16347	dpy	Writes text into a circle, or on an angle. [topic="16643"]dpy's Pack[/topic]
Clouds Plugin	1787	Sepcot	Now a built-in effect
CodeLab	880	Tom Jackson	Internal PDN tool for creating your own plugins. Code & apply your own effects on the fly. Updated and maintained by [member="BoltBait"].
Color Aberation	19513	MadJik	Allows you to move seperately RGB channels in % or in pixels. It could be a used to create 3D pictures.
Color Balance	2667	BoltBait	Easy color correcting or tinting effect.
Color Balance MIX	15657	DeathStar	Add more color or darken/lighten the image.
Color Balance+	15828	dpy	Enhanced color balance with Highlight, Shadow & Midtonal adjustments. [topic="16643"]dpy's Pack[/topic]
Color Channel Mixer	14522	SeriousSam	Channel mixer with addition and scaling.
Color Count	15357	stuff_gnome	Counts the number of colors (or number of times a color is used) in an image.
Color Filter, Color Tint, Posterize, Threshold	1768	Ed Harvey	Posterize is now built in to PDN. The other effects can be found here: [topic="18811"]Ed Harvey Effects v3.5[/topic]
Color inpainting v1.0	18112	zarathoustra	Colors gray areas in a picture where colors are only known in few parts of the picture.
Color Match v1.0	10631	pyrochild	Uses an existing image as a color template to recolor your image. Works best on photos. [topic="7291"]Pyrochild's Plugins[/topic]
Color Mixer v1.2	9740	Tanel	Make fine color adjustments.
Color Replace	8356	jchunn	Color filter with the ability to fine tune the color and alpha channels.
Color Target Plugin Pack	10729	rwp80	[i]Plugin Pack[/i]. Color Target v1.3 retains pixels of a similar color and brightness, all other pixels are made transparent. Color Stretch v1.0 stretch color values of pixels within specified threshold limits. Target Panel v1.0 advanced color manipulation tool with multiple input/output sliders.
Color to Alpha Advanced (PR1)	10494	Mike Ryan	Adjust the alpha level of your selected color while similar colors are adjusted as well.

Color to Alpha v2.2	7767	Tanel	Extracts a color range from image, by leaving pixels of selected color opaque and making the rest transparent. Only alpha values are altered, color remains intact.
Color Zoom Blur	19360	MadJik	Based on the zoom blur effect, but you are able to handle the color channels seperately.
Colour Chop	19657	n d	Similar to other colour cutting effects, but this creates a smoother transition from transparent <-> opaque
Colour Distort	16423	Anaco	Subtracts the red blue green by x+y or x-y or x*y depending on the option you select and then divides it by the amount you specified.
Colourblind simulation	19780	n d	Make sure your image is legible for colourblind
Combined Photo Adjustments	17810	BoltBait	Combines a number of photo adjustments on the same UI.
Conditional Effects	19986	cookies	Gives you the ability to run 6 effects, in the order, and only affect the colors matching the set conditions.
Conditional Hue/Saturation Effect	885	evanolds	Adjust hue and saturation by setting range and conditions. [topic="13003"]Evan's Effects v1.1[/topic].
ConditionalPen 1.1	10808	Simon Brown	No longer supported: provides a brush that will only function when a pixel is within the given min/max threshold.
Convolution Effect	14573	SeriousSam	Modifies each pixel by comparison to neighbouring pixels. 3x3 matrix is fully configurable.
Create Image-Map	11607	Simon Brown	No longer supported: provides an interface for constructing an HTML image map.
Curtis' Plugin Pack	8043	Curtis	[i]Plugin Pack[/i]. Effects: Tile image, Jumble, Selective palette, Equations, Effects Lab, Fern Fractal, Channel Mask, Displacement Map, Blur Map, Dots, Rounded Rectangle.
Curves+ v2.10	3749	pyrochild	A more powerful version of the Curves adjustment that comes with Paint.NET. [topic="7291"]Pyrochild's Plugins[/topic]
Custom Brushes 5.1.5	8576	Simon Brown	Superseded by a later release, use [topic="14845"]CustomBrushesMini[/topic].
CustomBrushesMini 1.0 RC3	14627	Simon Brown	Superseded by a later release, use [topic="14845"]CustomBrushesMini[/topic].
CustomBrushesMini v1.0	14845	Simon Brown	Draw with customized brushes. Replaces previous incarnations of Custom Brushes. [topic="15218"]Simon Brown's Plugin Pack[/topic].
CustomFrame Plugin 1.5	9147	Simon Brown	Add a pre-created frame to your image.
CustomTexture v1.0	10202	Simon Brown	Apply a custom texture to an image while maintaining the saturation. [topic="15218"]Simon Brown's Plugin Pack[/topic].
Cut Color	18769	xmario	Cuts one color & shades of it from your image. Choose color to leave & pixels of a different color are changed to transparent (or black and white).
Cutout Effect	1533	Illnab1024	[topic="8677"]Illnab1024's Plugins[/topic].
DDS File Support	1348	Dean Ashton	Enables DDS file loading & saving. Included PDN 3.1+
Desktop Background Preview	9693	Simon Brown	No longer supported: allows you to preview potential images as a background.
Detect plugin problems v1.0	14720	Simon Brown	[i]External resource[/i]. Diagnose the reason effects and filetypes may not be working.
Diagonal Lines v2.0	5550	jsonchiu	Renders diagonal lines, brushwidth, antialias & angle configurable.
Displacement and Alpha mask	9869	Bleek II	Distorts an image based on the light values of the mask.
Dissolve 1.3	15982	APShredder	Dissolves one image onto another.
Distorting Mirror	19440	MadJik	Effect similar to the distorting mirror you find at a fairground.
Distortion Effects (4 effects)	925	Rick Brewster	Bulge, Polar Inversion, Tile Reflection & Twist . Included PDN 2.70+
dpy's Pack	16643	dpy	[i]Plugin Pack[/i]. Effects: Black and Alpha+, Color Balance+, Multi-Threshold, Perspective Effect, AA's Assistant, Metallize, Circle Text, Rotate Text, Spiral Text & Wave Text, Speech Bubble.
DragFrom	21031	Simon Brown	Lets you upload images using drag and drop. Requires a capable browser such as Firefox and site such as Imgur or min.us.
Draw Triangles, Pentagons, Stars	2214	BoltBait	Draws closed polygons & stars. [topic="8318"]BoltBait's Plugin Pack[/topic]
Drawing Arrows, Dashed Lines, Dotted Lines, etc.	2900	BoltBait	Included in PDN 3.07+
Drop Shadow	1143	KrisVDM	Superseded by a later release [topic="8375"]Drop Shadow & Effects[/topic].
Drop Shadow, Color Accent, Gradient,…KrisVDM's plugin Pack	8375	KrisVDM	[i]Plugin Pack[/i]. Drop Shadow: The "Drop Shadow" effect, under the Object effect menu. With offset, widening, blur, opacity and a color picker. Duotones: "Duotone Light" and "Duotone Ink on Paper" adjustments. Monochromes: "Cyanotype", "Sepia 2", "Grayscale on Colored Paper" and "Monochrome Ink on Paper" adjustments. Blurs: "Average Blur" and "Smart Blur" effects, under the Blurs effect menu. Color Accent: "Color Accent" adjustment.Fade Edge: "Fade Edge" effect, under the Photo effect menu.Gradient: A four-color, non-linear "Gradient" effect, with high quality color dithering.Gridlines: Draws a grid with horizontal and vertical lines, under the render menu. Object Align: Aligns the object in the selection to the selection.

Name	ID	Author	Description
Dull	17982	StormWare	Dulls an image. Ranges from 0 (full color) to 170 (completely Grayscale).
EasyWatermark	8233	Simon Brown	Superseded by new release, use [topic="14517"]PDNWatermark[/topic].
Ed Harvey Effects	7333	Ed Harvey	Superseded by a later release
Ed Harvey Effects (v3.30 Beta 1)	8539	Ed Harvey	Superseded by a later release
Ed Harvey Effects (v3.30)	9297	Ed Harvey	Superseded by a later release
Ed Harvey Effects Archive	9296	Ed Harvey	Some of the effects in the Ed Harvey Effects package have been incorporated in Paint.NET. However, in some instances the built-in versions have a simpler interface or less features. The original effects will be archived here for anyone who really needs those features. Polar Inversion plus, Fragment, Dents "classic", Dithers (Ordered, Floyd-Steinberg and Atkinson Dithers).
Ed Harvey Effects v 3.5	18811	Ed Harvey	The latest version of the Ed Harvey Effects package
Ed Harvey Effects v3.36	11520	Ed Harvey	Superseded by a later release
Ed Harvey's FastFx	18819	Ed Harvey	These are replacements for existing paint.net effects that have been optimised for speed (Fast Blur, Pencil Sketch, Glow, Soften Portrait & Hue / Saturation).
Edgemaster	19682	n d	Edge detection effect.
EdHarvey Effects	3724	Ed Harvey	Superseded by new version
Editable Text v1.0 (formerly: Re-Editable Text BETA)	10056	Simon Brown	Note: Beta. Alternative text-tool that includes editable text. Works by using Steganography to store the details of the text in the text layer. [topic="15218"]Simon Brown's Plugin Pack[/topic].
Ed's Egregious Effects	3728	Ed Harvey	Fast Blur, Dither - Floyd-Steinberg HalfTone, Dither - Atkinson HalfTone.
Effect Addin for rounding the corners of an image	12678	dan9298	Round off square corners. Requires the .NET framework 3.5.
Eigen Blur v1.3	16319	Neil Cassidy	Improved Gaussian blur effect which uses brand new convolution code.
Engrave / Emboss	6809	Toli	Emboss/Egnrave effect with configurable strength. [topic="6828"]Toli's Effects[/topic].
Enhance Details Plugin	16610	BoltBait	Kind of reverse "Soften Portrait".
Enormators Effects	4131	Enormator	Stretch & DotAtCenter?
Erode / Dilate filter	3175	dake	Dilatation is a simple way to remove scratches and noise from a uniform background. Erode is similar to the Median Blur effect.
Evan's Effects v1.1	13003	evanolds	[i]Plugin Pack[/i]. Effects: Mirror over line, Conditional Hue/Saturation, Quadrilateral Reshape, Polygonal Transparency, 3D Object (BETA).
Extend Border v1.0	18290	Simon Brown	Extends the border of an image.
Extract Color v1.0	16425	APShredder	Allows user to change an image to grayscale, while keeping a certain color range in color (automates the [topic="12188"]Pleasantville Effect[/topic]).
Eyeshine (animal red-eye) removal	18085	Tanel	This plugin removes animal eyeshine from photos caused by direct flash.
Fast radial blur	5014	dake	Configurable radial blur.
Feather Plugin	2140	BoltBait	Softens the edges of objects that you are combining to make composite pictures. [topic="8318"]BoltBait's Plugin Pack[/topic]
FileType TP4 - RollerCoaster Tycoon	15281	Prillan	[i]Filetype[/i]. File support for *.TP4 files.
Fill from Clipboard	20976	YellowAfterlife	Fills the layer (or selection) with tiled texture from the clipboard.
Fill Gaps v1.0	13595	HiPhiSch	Fill parts deleted from an image based on the surroundings.
Film Noir Plugin	6684	Simon Brown	No longer supported: give your pictures a Film Noir style.
Film v2.0	4373	pyrochild	Filter your image to give it grain & intensity.
Find Edges	9387	Simon Brown	No longer supported: finds all edges in an image and convert the pixels black - the rest will be turned white.
Fire Effect	10518	Tom Jackson	Render flames with this single-effect implementation of the fire effect.
Fire Plugin	11836	BoltBait	Turn a black & white gradient into flames. [topic="8318"]BoltBait's Plugin Pack[/topic]
Fire Plugin	9487	Simon Brown	No longer supported: for rendering fire/flames.
Flag	11512	Simon Brown	No longer supported: select a flag & render it into the selection (needs a working internet connection).
Flip	1983	Illnab1024	Flips the selected pixels horizontally or vertically. Replaced by a later version: [topic="8318"]BoltBait's Plugin Pack[/topic].
Flip Horizontal	1137	MISIIM	Superseded by [topic="1983"]Flip[/topic].
Floyd-Steinberg dithering	2599	asura	Apply Floyd-Steinberg dithering.
FlySwatter	7067	ploogle	Applies filter to make image look shiny & metallic.
Focal Point	8411	jchunn	Blurs from a given focal point in an image. [topic="8408"]Jesse Chunn Plugin Pack[/topic].
Fractal Mandelbrot	5882	moc426	Create and configure the mandelbrot fractal. Included in PDN v?
Fragment	2530	Ed Harvey	Creates copies of the base image, each shifted from the original position by a given amount. The copies are then averaged together. [topic="11520"]Ed Harvey's Effects[/topic].

Frames	6210	MadJik	Wrap your image in a customised frame. [topic="7186"]Magical Plugins Megapack[/topic].
Frosted Glass+ v1.5	5565	pyrochild	Included in PDN 3.07+
Gabor filter v1.0	18113	zarathoustra	Applies an edge detector filter to the image, letting you choose the wavelength and the angle of edge detection.
Gaussian Blur+ (previously Channel Blur)	4867	BoltBait	Enhanced Gaussian Blur (can blur selected channel).
GenTree: Generator of Trees & Branches	4382	MadJik	Generates lifelike trees and branches.
Glass orb generator	4402	wizard	Renders glass spheres/orbs.
Glow effect	905	Rick Brewster	Apply a glow effect to a given selection. Included PDN 2.70+
Google Image Search 1.1	16518	Illnab1024	Allows you to use Google Image Search directly in Paint.NET.
Gradient Bars v3.0	4371	pyrochild	Creates bars of varying width, angle and thickness.
Gradient Blur (ymd:080410)	6532	MadJik	A combination of the gaussian blur & gradient effects. [topic="7186"]Magical Plugins Megapack[/topic].
Gradient Effect	1191	pleska	Gradient fill between current primary and secondary.
Gradient Mapping v2.2	6265	pyrochild	Create a custom gradient and map it to your image based on any supported input channel. One of the primary uses is to create a multi-colored gradient.
Gradient Plugin v2.0	1957	Illnab1024	Apply a variety of configurable gradients. Co-Authored by [url=http://forums.getpaint.net/index.php?/user/44727-]BoltBait[/url].
Grain Noise (Film Grain)	19479	Tanel	This effect generates "film grain" (or luminance grain). Use it to add some character to otherwise boring-smooth digital image.
Gralpha	17943	Vermiculus	Grayscale to Alpha Adjustment.
Graph Maker Plugin	15476	dsplaisted	Uses (and builds on) the [topic="4175"]Grid Maker[/topic] plugin to render graphs.
Gravity	7968	MadJik	Treats pixels as if they were sand, dragging them down until they have supporting pixels under them. [topic="7186"]Magical Plugins Megapack[/topic].
Grayscale+	17982	StormWare	Instead of averaging RGB like normal Grayscale, Grayscale+ retains the greatest of the RGB values.
GREYCstoration Wrapper *BETA*	6790	Crazy Man Dan	Replaced by the built-in "Reduce Noise".
Greyscale channel mixer	4012	andersbursjoo	Converts images to greyscale with luminescence control.
Grid Maker	4175	MadJik	Draws grids, also checkerboard and dots.
Grid Maker v2.0	1964	Illnab1024	Superseded. Use MadJik's [topic="4175"]Gridmaker[/topic].
Grim Color Reaper	15595	Jotaf	Remove a color (ie background) from an image while maintaining the alpha information.
Hardware Accelerated Blur Pack	19364	Bruce Bowyer-Smyth	Uses your video card's GPU to process images at a potentially huge performance leap. The blurs in this pack are: Channel Blur, Gaussian Blur, Motion Blur, Radial Blur & Zoom Blur.
HD Photo plugin - BETA	3508	Rick Brewster	Support for HD imaging. Note: beta. .NET Framework 3.0 required
Heightmap	21224	radobot	Transforms an image to a heightmap. Imagine shining a light on an uneven surface. Lightness of each pixel represents it's height.
Hexagonal Grid v3	3078	MadJik	Creates a hexagonal grid. Includes brushwidth & Antialias controls.
High Pass	19837	cookies	High pass filter - used to correct (sharpen) images in much the same way as Unsharp Mask
Icon, Cursor, and Animated Cursor Format	927	evanolds	[i]Filetype[/i]. Support for Icon & cursor filetypes, including animated cursors.
Illnab1024's Plugins. (v1.1)	8677	Illnab1024	[i]Plugin Pack[/i]. Alpha Mask, Cutout Effect, Advanced Greyscale, Point Warp, Polar to Rect.
Image To Code (AKA Image To C)	2965	ShayEr	Convert image to C/C++ data structure.
Increase Local Contrast	14204	MichaelVinther	Improve badly lit photos or dramatize dull photos. Requires .NET Framework 3.5 SP1.
Ink Sketch	3474	BoltBait	Converts image to inked sketch version. Included PDN 3.1+
IntenColor	17484	P13Darksight	Takes the intensity of the current pixel & performs mathematical operations on it to adjust the color.
Interlace	3573	tunedude	Adds horizontal/vertical stripes of color/transparency to the image.
Invert Alpha	9625	Mike Ryan	Inverts the Alpha Channel based off of your set tolerance.
Invert Alpha	15736	person_321	Deleted by Author as another plugin of this nature exists: use [topic="15736"]Invert Alpha[/topic].
Invert around primary color	14623	Enormator	Invert colors around other colors.
Invert Channels	15754	person_321	Invert the intensity of any of the RGB channels.
Isolate Black / White	17865	Mike Ryan	Generates a B&W copy of the layer then applies it as an alpha mask.
Isolate Lineart	13535	silverhammer	Converts a B/W image (like a pencil drawing) to a "black and transparent" image.
Jesse Chunn Plugin Pack	8408	jchunn	[i]Plugin Pack[/i]. Effects: Soften edges, Focal point, Stencil, Color Replace, Varicose, Bricks.
Jitter v3.0	4681	pyrochild	"Jitters" each row of pixels by a random amount, giving a shimmy type effect. [topic="7291"]Pyrochild's Plugins[/topic]

JPEG 2000	910	Gumboot	[i]Filetype[/i]. Jpeg 2000 file format reader/saver.
JPEG Effect	15554	Simon Brown	No longer supported: distorts an image by running it through the JPEG codec.
Kaleidoscope	3428	MadJik	Turn images into kaleidoscopes. [topic="7186"]Magical Plugins Megapack[/topic].
Kaleidoscope Effect	20081	pleabo	Generate kaleidoscopic effects. Has center point selector and a source angle rotator.
Kill Color v1.1	13884	HiPhiSch	Removes a color from the selected part of the image and tries to find a substitution for it by analyzing the surrounding parts.
Koch Snowflake Fractal	15270	stuff_gnome	Renders the Koch fractal snowflake in configurable complexity, with brushwidth & antialias options.
Landscape	16736	BoltBait	Automates a number enhancements for landscape pictures. [topic="8318"]BoltBait's Plugin Pack[/topic]
Layer Saver	9704	I Like Pi	[i]External resource[/i]. Standalone executable saves each layer in a PDN file as a separate file.
LCD Subsampling resize	7775	xrl	Resizes image horizontally at 50% while retaining sharpness.
Light Rays	4495	MadJik	Draws "rays" of light from the center (can be offset). Uses alternated triangles as the rays.
Lightning	19792	cookies	Create lightning bolts & other cool energy bolts.
Liquify	20688	pyrochild	Similar to Photoshop's Liquify or GIMP's IWarp. Compatible with Photoshop's mesh files.
Local Contrast Enhancement v1.2	8169	Tanel	Clarify flat or hazy looking photos. [topic="11619"]Tanel's Plugin Pack[/topic].
Lomography	11785	BoltBait	Simulate the effects of a Lomo camera : high contrast, twisted colors and a noticeable vignette..
Low Color Filetype (bmp, gif, png)	15317	jxp	[i]Filetype[/i]. Save images as 16 color bitmaps or gifs. Previously known as "16 Colors".
MadJik' all plugins	7186	MadJik	[i]Plugin Pack[/i]. Effects: Color Zoom Blur, Gradient Blur, Color Aberation, Distorting Mirror, Gravity, Kaleidoscope, Magnifier, Motion sharpen, Oblique, Page Curl, Panelling, Polar transformation, Seamless Texture Maker, Sine Wave Distort, Tiles Reflection, Tube Effect, TwistZ, Water Reflection, Waves, Wet Floor Reflection, Auto Chrome Noise, Bars, Buttons, Frames, GenTree/TreeGen, Grid Maker, Hexagonal Grid, KaleidGen, Light Rays, Mazes, Randome lines generator, Rosaces, Sparkles, Spiral, SpiroGraph, Splashes, Volutes, Majority Color, Over Liner, Star Glow, Moire, Perlin Texture, Radial Colors, Rainbow Twist Colors. BONUS in the Package: Displacement, Lens Flare, XY Coords, Matrice, Nebulous, NewtonFractal, Vibrato.
Magnifier (Lens+)	19514	MadJik	An evolution of the Ed Harvey's Lens effect, with enhanced features & options.
Majority Color	3978	MadJik	Each pixel takes the value of its neighbours that have the majority. [topic="7186"]Magical Plugins Megapack[/topic].
Make Colour Transparent	10841	Simon Brown	Superseded, use [topic="10494"]Color to Alpha Advanced[/topic].
Make Transparent	9667	GoldenCrystal	Make an image transparent in respect of the chosen color.
Metallize	15386	dpy	Applies a chrome or metallic sheen to an image. [topic="16643"]dpy's Pack[/topic]
Mexican Hat Edge Detect	8638	PhilipLB	A simple Mexican Hat edge detection filter.
Mike Ryan's Plugins	11645	Mike Ryan	[i]Plugin Pack[/i]. (No longer supported) Effects: Alias, Color Trimming, Input to Output, Brightness/ Darkness to Alpha, Invert Alpha, Silhouette Plus.
Mirror / Rotate	6686	Toli	Mirror selection horizontally, vertically, or over a diagonal. Rotate a selection. [topic="6828"]Toli's Effects[/topic].
Moire	8450	MadJik	This texture plugin replaces the selection (or the active layer if no selection) with colourful concentric rings.
Monochrome	5512	hollander	Convert image to monochrome (black, white & color supported).
Mosaic Effect - v1.0.0.0	14354	Tim!	Converts a drawing into a mosaic pattern, using the Secondary colour as the adhesive or grout between the tesserae. [topic="14145"]Tim's Effects[/topic].
Mosaic Maniac Collage Paint	14969	MosaicManiac	Paint with whole collections of images! Creates a unique non repeatable pattern of images.
Multi Color Gradient	8527	romein	Create / edit a multi-color Gradient.
Multi-Threshold	18368	dpy	Run multiple "threshold" filters at once.
Night Vision	20643	pleabo	Create a Night Vision and Inverted Night Vision
Noise Reduction	18490	ncoquard	Noise reduction plugin, written specifically to reduce the artifacts in JPG images.
Normal Map	2534	stinger	Height field (gray scale) to normal map (creates a much better illusion of height).
Normalize, Egalize	8631	PhilipLB	Normalize stretches the histogram (entire color range is used). Egalize modifies the colors, so they are used in the same amount.

NormalMap 1.1	13362	harold	Calculate the first order derivatives of the image (think: emboss). Light angle is adjustable. Incompatable with PDN 3.5x, use [topic="17010"]NormalMapPlus v1.0[/topic].
NormalMapPlus v1.0	17010	Simon Brown	PDN 3.5x version of NormalMap 1.1.
Object Reflections - Wet Floor Effect	2161	BoltBait	Superseded, use [topic="7185"]Wet Floor Reflection[/topic].
Oblique Effect	2524	MadJik	Incline texts or images, vertically horizontally or both. [topic="7186"]Magical Plugins Megapack[/topic].
Octagonal/Quad reshape/matte	2642	evanolds	Reshape the image or crop to an arbitrary quad or octagonal region.
Olden 1.5	11068	Simon Brown	Applies and aged look to your image. [topic="15218"]Simon Brown's Plugin Pack[/topic].
OpenRaster Filetype	20984	Zagna	[i]Filetype[/i]. Ora file support.
OptiPNG	6305	I Like Pi	[i]Filetype[/i]. Integrates OptiPNG with Paint.NET, optimizes PNGs to make them smaller (http://optipng.sourceforge.net/).
OtherFarmColorReplacer :: Color Replacer Effect	13000	OtherFarm	Remove/change a color (with a tolerance). Useful for changing background/text color.
Outline Object v2.6	4923	pyrochild	Place a border around object/area. Note: object must be surrounded by transparency. [topic="7291"]Pyrochild's Plugins[/topic]
Outline Selection	9870	Aziz	Outline the outside/inside of a selection.
Overliner	19441	MadJik	Scans the image to find breaks in the colors between pixels. If the break is from dark to light then the pixel is replaced with the light color (otherwise the dark color).
Page Curl Effect	10020	MadJik	Creates a curl on a corner of your image, just like a curling page.
Paint.NET Bulk Image Processor v1.0	18936	Corillian	Batch process images <removed by Rick for not playing nicely with PDN>
Paint.NET Effect Installation Right-Click Menu Option 1.3	10329	Simon Brown	[i]Depreciated[/i]. Simplifies plugin installation by adding "install" option to right click menu on plugin ZIP file.
Paint.net Plugin Installer	6859	Powerslave UK	Removed due to Licenses.
Paint.Net Plugin Manager	9897	Braiden	Add or remove plugins from the Paint.NET/Effects folder.
Paint.NET Search for Firefox	12410	Simon Brown	[i]External resource[/i]. Adds the Paint.NET search engine (http://www.searchpaint.net/) to Firefox.
Palette from image tool	15318	jxp	Extracts the palette from the current image & saves it to (or creates) a paint.net palette file.
PaletteConverter BETA	14582	Simon Brown	[i]External resource[/i]. Converts and edits palettes. Requires Windows XP & .NET framework 3.5. Note: Beta
Panelling Effect	2617	MadJik	Allows the moving of selection, vertically, horizontally or both. [topic="7186"]Magical Plugins Megapack[/topic].
Pastel/Water Color	2045	BoltBait	Pastel/Water color filter. [topic="8318"]BoltBait's Plugin Pack[/topic]
PCX Plug-In	2135	Joshua Bell	[i]Filetype[/i]. Load & save PCX images.
PDN File Info viewer	10849	harold	[i]External resource[/i]. View information about a PDN file (dimensions, number of layers and the version of PDN used to save the image).
PdnBench for Paint.NET v3.0	2771	Rick Brewster	Superseded by new version
PdnBench for Paint.NET v3.20	7256	Rick Brewster	PDN benchmarking utility (speedtest). External resource
PdnFF	20380	null54	Allow filters from Adobe's Filter Factory (for Photoshop) to be run by Paint.NET.
PDNWatermark	14517	Simon Brown	No longer supported: add watermarks to your image.
Perlin Texture	19495	MadJik	Creates brilliantly colored patterns
Person_321's texture and color plugins	16103	person_321	[i]Plugin Pack[/i]. Effects: Invert Channels, Rainbow loom, Sound wave & X Rainbow bars.
Perspective Effect (Beta)	16197	dpy	Trapezoid transform of your image by adjusting the height &/or width of the sides. [topic="16643"]dpy's Pack[/topic]
Perspective Lines	17864	tzachs	Draws vanishing points & guidelines to help you with drawing in perspective.
Photo Flood Fill	1292	pleska	Takes an image and "flood-fill" it into the selection region, repeating it over and over.
Photoshop file plugin (obsolete)	1001	frankb	Plugin for loading and saving Photoshop files. Obsolete, use [topic="18128"]Photoshop PSD file plugin[/topic].
Photoshop PSD file plugin (1.0.7 and later)	18128	taoyue	[i]Filetype[/i]. Plugin for loading and saving Photoshop files.
Pixelate+ v1.0	9590	pyrochild	Enhanced pixelate effect, adds a new sampling mode (the one GIMP uses) as well as the ability to use non-square cells. [topic="7291"]Pyrochild's Plugins[/topic]
PixelatedFrame	9303	Simon Brown	No longer supported: adds a frame to an image that is a pixelated version of the image itself.
PixelLab Beta 1	9797	Simon Brown	Provides a simplified programming language in which to create effects/plugins. Note: Beta status.
Plugin Effect Installer 1.0	19359	Hunter	Installer for plugins.
PNG Preprocessor	19648	niwax	Prepares images being saved as PNG by optimizing the image. Size of the file can be 40-80% of the original size.

Name	ID	Author	Description
PNM File Type Plugin	17202	zeeshanejaz	[i]FileType[/i]. Plugin to read and write PNM Images. PNM is a portable bitmap format used in legacy software (more common in LINUX / UNIX Platforms).
Point Blur	19908	boude	Does the reverse of Zoom Blur (Zoom Blur blurs away from a certain point, Point Blur blurs towards the centre point).
Point Warp / Engorged smudge	7684	Illnab1024	Similar to the 'bulge' effect but in the horizontal plane instead of the vertical. [topic="8677"]Illnab1024's Plugins[/topic].
Polar transformations	9364	MadJik	Translate image from rectangular to polar coordinates and vice versa. [topic="7186"]Magical Plugins Megapack[/topic].
Polaroid Frame	11694	Ego Eram Reputo	Overlays a frame with the correct size ratios to form a polariod.
Polygon Tool	9381	Simon Brown	A line tool - which will draw another line from the last drawing postion to the current position. Tools menu.
Portrait Effect	3484	BoltBait	Soften portraits to look more professional. Included PDN 3.1+
Posterize Alpha	15654	jxp	Based on the standard Posterize adjustment, with enhancements.
Posterize in HSV Space	12940	MJW	Enhanced posterize effect that converts the color into HSV space, truncates the values, then converts back to RGB.
Power Stretch 2.0 Beta	8209	pyjo	Warp images by appearing to bend their surface. Note: Beta
Primary Color Difference to Alpha	5536	Enormator	Calculates the difference between the pixel and primary color. The more they are equal, the more transparency will result.
Printer+ v1.0	13070	Simon Brown	Enhanced Paint.NET printing interface (Effects>Tools>Printer+).
PS Emboss	20556	cookies	Emboss effect. Simulates the one in Photoshop.
PSFilterPDN	20622	null54	This plug-in hosts Photoshop Filter plug-ins under Paint.NET.
Psychedelic	8475	romein	Filter creates a variety of psychedelic color effects.
Pure Black and White converter	16049	AdamCG	Converts to COMPLETELY black and white (& NOT grayscale). Action can be done with B&C tool.
pyrochild plugins	7291	pyrochild	[i]Plugin Pack[/i]. Effects: Curves+, Borders 'N Shapes, Gradient Bars, Film, Jitter, Outline Object, Stitch, Scriptlab, Gradient Mapping, Splatter, Pixelate+, Color Match, Random Effect, Random Shape Fill, Smudge, Trail, Gradient Blocks, Twist, Liquify.
Radial Colors	7181	MadJik	Predefined formulas (sinusoid curves) define and mix Red, Green, Blue colors. [topic="7186"]Magical Plugins Megapack[/topic].
Rainbow	5975	spongey437	Fills selection with a rainbow colored gradient.
Rainbow Loom	15799	person_321	Renders a pre-defined pattern.
Rainbow Twist	7182	MadJik	Rainbow twist the three basic color Red, Green, Blue. [topic="7186"]Magical Plugins Megapack[/topic].
Random Effect v1.2	10632	pyrochild	Chooses a random plugin (or built-in effect), and renders it with randomized settings. [topic="7291"]Pyrochild's Plugins[/topic]
Random lines Generator	7630	MadJik	Create/add straight & curved lines. [topic="7186"]Magical Plugins Megapack[/topic].
Random mazes	8448	MadJik	Draw horizontal/diagonal maze with configurable size, wall chance, brush width & more.
Random Shape Fill v1.0	10633	pyrochild	Draws random (predefined) shapes on the canvas. 17 shape modes & 9 color modes plus many options.
RAW File	15611	Pebal	[i]Filetype[/i]. Dcraw based raw file reader.
Rawload v1.0	17525	avatare	[i]Filetype[/i]. Load *.raw files with metadata using the Windows Imaging Component and preserving the image metadata.
RawLoader	3201	rpetrich	[i]Filetype[/i]. Decode RAW camera images and make them available for use in Paint.NET.
RawReader	8099	lvn	[i]Filetype[/i]. Dcraw based RAW file reader.
Reduce Noise	7257	Tom Jackson	Reduces the noise in an image while maintaining detail. Included PDN v3.22+
Reflection - effect	12913	dS810	Create mirror/water type reflections of an existing image.
Refocus Filter v1.0	18665	alexb	Sharpens a blurred image using algorithm with deconvolution element.
Render Color Wheel	12951	MJW	Draws a HSV color wheel, centered in the current selection.
Resource translator v1.0 BETA	15810	Simon Brown	Convert between *.resource files and a type of txt file. Aids development of PDN Language packs. Note: Beta status.
Reverse Colors	21527	MadJik	Selectively reverse the values of any of the RGBA channels.
RGB to CMYK	3763	BoltBait	Conversion between RGB (RedGreenBlue) and CMYK (CyanMagentaYellowblacK) color formats.
RGB565 Android splash screen format	16747	ejohnson0547	[i]Filetype[/i]. Read and write to the RGB565 or RAW565 format.
Rotation Bilinear v1.1	16741	alexb	Precision rotation of selection using bilinear algorithm.
Rounded Rectangle Effect - v1.2.0.0	14355	Tim!	Uses the Primary and Secondary colours and the current brush width to draw a rectangle with rounded corners into the current selection. [topic="14145"]Tim's Effects[/topic].
Sabrown100 Plugin Pack	8339	Simon Brown	Superseded by later release: [topic="15218"]Simon Brown's Plugin Pack[/topic].
ScreenPixel	9059	Bleek II	Takes a pixelated image and breaks the blocks into RGB components. Requires Pixelate.

Name	ID	Author	Description
ScriptLab v2.4	6091	pyrochild	Create compilations of other Paint.NET effects, adjustments, and plugins. You can save, load, and share your scripts. Includes Batch Processor. [topic="7291"]Pyrochild's Plugins[/topic]
Seamless Texture Helper	2244	BoltBait	Makes a given image seamlessly repeatable.
Seamless Texture Maker	4591	MadJik	An updated version of BoltBait's [topic="2244"]Seamless Texture Helper[/topic]. Create textures with no apparent edge when tiled. [topic="7186"]Magical Plugins Megapack[/topic].
Segment Image	16962	Neil Cassidy	Analyzes image and groups pixels that are relatively close together in the image and have roughly the same color.
Selection Tools - Feather, Outline, Bevel	11514	BoltBait	Mini pack of tool for working on a selection. (feather = fade edge, bevel = add shadow/highlights).
Selective Enhancement Plugin v1.1	13522	HiPhiSch	Spread out or push together colors close to the selected one.
Selective Toning v1.0	13554	HiPhiSch	Apply toning corrections. With blending mode selector and alpha channel support. Similar to Advanced Color Replacement.
Shadow / Highlight Recovery v2.2	5578	Tanel	Fix excessively contrasty photos, by brightening shadows and/or darkening highlights. [topic="11619"]Tanel's Plugin Pack[/topic].
Shadow effect	1900	ryanr23	Generates shadows with angle and transparency options. Like Google Map.
Shape(ray, arrow, circle, etc)	3713	myxlplyx	Draw rays, arrows & circles with "tv snow" effect (similar to chalk drawing) added to the shapes.
Shape3D	18968	MKT	Wrap your image around a 3D shape (with appropriate lighting).
Shaped Gradient v1.5	19669	niwax	Creates a gradient in the shape of the selection
Sharpen+ (Advanced Unsharp Mask) v3.1	5456	Tanel	Sharpen photos with an unsharp mask. Yields finer results than the built-in sharpen effect.
Shoot Paint.NET (aka Bullet?)	11917	Simon Brown	No longer supported: renders bullet holes in your image.
Silhoette Plugin v2.1	9299	Simon Brown	Silhouettes images with partial transparency; turns the RGB to 000000 while preserving alpha. Silhouette(sp?)
Silhouette Plus	11035	Mike Ryan	Converts the entire canvas into your selected color while preserving the alpha levels of each pixel.
Simon Brown's plugin pack	15218	Simon Brown	[i]Plugin Pack[/i]. Effects: CustomBrushesMini, ThatOtherApp, Upload to, Printer+, Animated Image, Find Edges, Olden, Editable Text, Extend Border, DragFrom.
Simple Lines Plugin	5972	spongey437	Draw vertical /horizontal lines across a selection.
Simulate Color Depth	20096	cookies	Reduces the color depth of an image as if they had x bits of color data. Both monochrome and RGB options are included.
Sine Curves	7647	MadJik	Depreciated, use [topic="8043"]Equation[/topic] from [topic="8043"]Curtis' Plugin Pack[/topic].
Sine Wave Distort	4878	MadJik	Uses sine function to apply a horizontal &/or vertical shift. [topic="7186"]Magical Plugins Megapack[/topic].
Smart Sharpen	15128	Pebal	Dedicated to sharpening images after reduction size. Uses an adaptive algorithm, optimized for maximum reduction of halo effect.
Smooth	6776	Toli	Selected Area is Smoothed internally, as if there were no surroundings. [topic="6828"]Toli's Effects[/topic].
Smudge v2.2	10634	pyrochild	Use custom brushes (*.png format) to smudge along the mouse path. [topic="7291"]Pyrochild's Plugins[/topic]
Soften Edges	8586	jchunn	Detect "rough" edges and softens them. [topic="8408"]Jesse Chunn Plugin Pack[/topic].
Sound Wave	16129	person_321	Renders a wave pattern. [topic="16103"]Person_321's Texture & Color Plugins[/topic]
Sparkle, Glitter & Stars	5942	kshotts	Generate glowing spheres, diamonds, and flares, with lots of parameters.
Sparkles Effect	9293	MadJik	Scans the image to find the bright highlights then adds some sparkle to them. [topic="7186"]Magical Plugins Megapack[/topic].
Speech Bubble	18378	dpy	Write speech bubbles directly to your canvas.
Spiral Text ver 1.2	16496	dpy	Writes text on a spiral. [topic="16643"]dpy's Pack[/topic]
Spirals	7963	MadJik	Simple spiral plugin. Use it to create/add spirals to your images. [topic="7186"]Magical Plugins Megapack[/topic].
SpiroGraph	5121	MadJik	Draws alternated centered polygons and rotates/reduces each of them. Uses Primary & Secondary colors. [topic="7186"]Magical Plugins Megapack[/topic].
Spiroshapes	2949	MadJik	Draws repeating polygon shapes to create a more complex shape. Similar to "spirograph". [topic="7186"]Magical Plugins Megapack[/topic].
Splashes	9300	MadJik	Create/add splashes/stamps, etc…, [topic="7186"]Magical Plugins Megapack[/topic].
Splatter v1.5	8502	pyrochild	Create paths similar to dripping paint. [topic="7291"]Pyrochild's Plugins[/topic]
SpriteSheet Animation v1.3	14848	SeriousSam	Test and design Sprite Sheets.
Star Glow	19363	MadJik	Use it to add some high lustre sparkle to your image.
Starry Sky	17641	mcamp14	Creates a starry sky (utilizes Pixellab).

Stars Effect	9295	MadJik	Create/add polygon based stars. [topic="7186"]Magical Plugins Megapack[/topic].
Steganography (Hidden Images)	4786	BoltBait	Hide / show a second image in your original image. [topic="8318"]BoltBait's Plugin Pack[/topic]
Stencil	8410	jchunn	Convert an image (or selection) into a two color image similar to a stencil. [topic="8408"]Jesse Chunn Plugin Pack[/topic].
Stewien Filters	14283	John Stewien	Apply a range of filters to your image.
Stitch	5936	pyrochild	Distorts base image with a "splintered" appearance. [topic="7291"]Pyrochild's Plugins[/topic]
StockLibrary1.5	10521	Simon Brown	No longer supported: manage your stock images from within PDN.
Stus Effects	17732	sradforth	Four effects: Advanced Rotate, Vignette, iPhone TabBar Icon Maker, RGB remapper & Alpha Contrast.
SubtleEffect	10784	Simon Brown	No longer supported: allows you to select a plugin and independently adjust the opacity that the effect will hold over the original image.
SVGImport	11537	Simon Brown	No longer supported: [i]Filetype[/i]. Adds support for SVG files. Note: requires InkScape be installed.
Take screen shots and paint it in Paint.NET	11196	pamkkkkk	Screen shot utility to take screen images and send them to Paint.NET.
Tanel's Photo and Color Plugins	11619	Tanel	[i]Plugin Pack[/i]. Effects: Sharpen+, Shadow/highlight recovery, Local contrast enhancement, Color to alpha, Color mixer, Red eye quick fix, Basic adjustments, Black & White Converter, Hue/saturation+, Alpha blur.
Text Pro (free trial)	17056	romein	Word Art for PDN. Registration is required to remove watermark protection.
Text Steganography BETA	7792	I Like Pi	Encodes hidden text within an image. The plugin is also needed to view the text. Note: Beta status.
Texturize effect	14278	MichaelVinther	Add a texture to a photo or image by changing the pixels brightness (based on the gradient of the texture). Requires .NET Framework 3.5 SP1.
That other app v1.0	13005	Simon Brown	Adds an item to the tools menu which allows you to shell out to another application (GIMP, Photoshop, etc..,) to edit the current layer. On Save & Close the changes will appear in Paint.NET.
Thermal Heat Map	20672	Ego Eram Reputo	Create a thermal representation of an image where brightness becomes 'heat' and dimness becomes 'cool'.
Threshold	9324	Simon Brown	The threshold effect will change all pixels over the specified number to white, and the rest black.
Tile Fill Addin	12831	dan9298	Fills the current image with a tiled version of another image (held in the clipboard).
Tiles Reflection XL	6322	MadJik	Enhanced version of "Tiles Reflection" from Paint.net v3.1.
Tim's Effects	14145	Tim!	[i]Plugin Pack[/i]. Contains: Rounded Rectangle v1.2 & Mosaic Effect v1.0.
Toli's Effects	6828	Toli	[i]Plugin Pack[/i]. Effects: Mirror/Rotate, Engrave/Emboss, Smooth.
Toon Filter	1671	ownage	Extracts pencil / line type drawing from an image (based on edge detection).
Toon Shader	15306	Smoke_Dev420	Simplifies image colors using code based on DirectX toon shaders.
Trail	18653	pyrochild	Echos' an object on an otherwise transparent layer, so that it appears to have a 'trail'.
Trail 3d	19870	nd	Creates a "trail" from the object to center point.
TransitionalBrush	10672	Simon Brown	No longer supported: allows users to select two colours and have a brush that gradually changes colour between them.
Transparency Adjustment Effect	2800	BoltBait	Adjust the opacity of a selection independent of the entire layer. [topic="8318"]BoltBait's Plugin Pack[/topic]
Triangular Gradient	18395	Enormator	Makes a triangular gradient in selection (or on the full image when nothing is selected) from primary to secondary color (including alpha).
Tube Effect (aka tube oblique?)	3491	MadJik	Distort an image as if you wrapped it around a cylinder. [topic="7186"]Magical Plugins Megapack[/topic].
Twainable - Acquire from TWAIN sources v0.2	15384	NisseBosseLasse	Add TWAIN support for scanners. Should be compatible with all scanners that are TWAIN compliant.
Twistz / Twist +	6189	MadJik	Transform an image by applying a spiral twist. [topic="7186"]Magical Plugins Megapack[/topic].
Unsharp Mask	8415	romein	Corrects blurring introduced during photographing, scanning, resampling, or printing.
Upload to... V2.0	13242	Simon Brown	Upload images direct to the internet from within Paint.Net.
Vantage Preview Images (.VBP)	14711	mchansy	[i]Filetype[/i]. Support for Vantage Sat Receiver Preview Images.
Varicose	8179	jchunn	Wibbly line creator. [topic="8408"]Jesse Chunn Plugin Pack[/topic].
Vibrato	3691	MadJik	Texturing / distorting effect.
Vignetting Filter	20012	alexb	Radial Vignetting Photo Filter. Due to the similarity to Ed Harvey's [topic="18811"]Vignette[/topic] plugin, this plugin has been locked.

Volutes	14478	MadJik	Draws random curves. The curve is pre-calculated and then resized to fit in the image, so start and end points are at random positions. [topic="7186"]Magical Plugins Megapack[/topic].
VTF Plug-In (1.0.4)	3254	Nem	[i]Filetype[/i]. VTF file support. File format used by the Source engine (Half-Life 2 etc.).
Water Reflection	2482	MadJik	Render a reflection as if your image was reflected in water. [topic="7186"]Magical Plugins Megapack[/topic].
Wave Text v1.0	16634	dpy	Writes a string of text along a sine curve. [topic="16643"]dpy's Pack[/topic]
Wavelet Haar 2-tap	21212	hindol	Performs a Haar 2-tap transformation of an image
Waves	3625	MadJik	Wave distortion effect.
Wet Floor Reflection	7185	MadJik	Renders a reflection similar to a wet floor.
WhichSymbol / WhichSymbolPlus	10684	Ego Eram Reputo	Character & symbol browser/writer for installed fonts. Co-authored by [url=http://forums.getpaint.net/index.php?/user/48996-]Simon Brown[/url].
WMF (Windows Metafile) v1.1.1	17950	Bruce Bowyer-Smyth	[i]Filetype[/i]. Opens WMF files as a raster image. NOTE: OPENS FILES ONLY - will not save as *.WMF
X Rainbow bars	16094	person_321	Renders horisontal bars of rainbow hues. [topic="16103"]Person_321's Texture & Color Plugins[/topic]
XPM File Type plugin	14512	naylorjs	[i]Filetype[/i]. XPM support in Paint.NET. Doesn't handle every XPM option.
XY Coords	4175	MadJik	Creates a grid with the text giving the position of the cell in this grid with X,Y coords. Useful to understand the transformation done by other distort effects. Note that the link given here points to the Gridmaker plugin thread, you will find XY Coords on the second page of that thread or just [url=http://forums.getpaint.net/index.php?/topic/4175-grid-maker-plugin-ymd070614-v32/page_view_findpost_p_66433]Click Here[/url]. [topic="7186"]Magical Plugins Megapack[/topic].
Zigzag ray	3852	myxlplyx	Creates shapes/lines using scales.
Zoom Blur Deluxe (aka Fast zoom blur)	3122	dake	Improved zoom blur effect.
